Part 2 — Endpoint Architecture

Authentication APIs

Register

`POST /api/v1/auth/register`

Purpose

- Create a new user account.
-

Login

`POST /api/v1/auth/login`

Purpose

- Authenticate user.
-

Logout

`POST /api/v1/auth/logout`

Refresh Session

`POST /api/v1/auth/refresh`

User APIs

Get Current User

GET /api/v1/users/me

Update Profile

PATCH /api/v1/users/me

Delete Account

DELETE /api/v1/users/me

Portfolio APIs

Get Portfolio

GET /api/v1/portfolio

Portfolio Analytics

GET /api/v1/portfolio/analytics

Portfolio Performance

GET /api/v1/portfolio/performance

Holdings APIs

Get Holdings

```
GET /api/v1/holdings
```

Holding Details

```
GET /api/v1/holdings/:holdingId
```

Transaction APIs

Get Transactions

```
GET /api/v1/transactions
```

Transaction Details

```
GET /api/v1/transactions/:transactionId
```

Market APIs

Get Market Overview

```
GET /api/v1/market
```

Search Stocks

```
GET /api/v1/stocks
```

Query Parameters

```
search
sector
exchange
page
limit
sort
order
```

Stock Details

```
GET /api/v1/stocks/:symbol
```

Historical Prices

```
GET /api/v1/stocks/:symbol/history
```

Paper Trading APIs

Buy Stock

```
POST /api/v1/trades/buy
```

Body

```
{
  "stockId": "",
  "quantity": 0
}
```

Sell Stock

```
POST /api/v1/trades/sell
```

Order Preview

POST /api/v1/trades/preview

Watchlist APIs

Get Watchlist

GET /api/v1/watchlist

Add Stock

POST /api/v1/watchlist

Remove Stock

DELETE /api/v1/watchlist/:stockId

AI Coach APIs

Chat

POST /api/v1/ai/chat

Portfolio Review

POST /api/v1/ai/portfolio-review

Stock Analysis

POST /api/v1/ai/stock-analysis

Learning Recommendation

GET /api/v1/ai/recommendations

Learning APIs

Get Courses

GET /api/v1/learning/courses

Course Details

GET /api/v1/learning/courses/:courseId

Update Progress

PATCH /api/v1/learning/progress

Quiz Submission

POST /api/v1/learning/quiz

Competition APIs

Get Competitions

```
GET /api/v1/competitions
```

Competition Details

```
GET /api/v1/competitions/:competitionId
```

Join Competition

```
POST /api/v1/competitions/:competitionId/join
```

Competition Leaderboard

```
GET /api/v1/competitions/:competitionId/leaderboard
```

Global Leaderboard APIs

Weekly

```
GET /api/v1/leaderboard/weekly
```

Monthly

```
GET /api/v1/leaderboard/monthly
```

All Time

```
GET /api/v1/leaderboard/all-time
```

Notification APIs

Get Notifications

```
GET /api/v1/notifications
```

Mark As Read

```
PATCH /api/v1/notifications/:notificationId
```

Delete Notification

```
DELETE /api/v1/notifications/:notificationId
```

Admin APIs

Dashboard

```
GET /api/v1/admin/dashboard
```

Users

```
GET /api/v1/admin/users
```

Reports

```
GET /api/v1/admin/reports
```

Competitions

```
POST /api/v1/admin/competitions
```

```
PATCH /api/v1/admin/competitions/:competitionId
```

```
DELETE /api/v1/admin/competitions/:competitionId
```

Endpoint Naming Rules

- Use plural resource names.
 - Use nouns instead of verbs.
 - Keep URLs lowercase.
 - Use nested routes only when relationships are explicit.
 - Maintain consistent endpoint patterns.
-
