Part 1 — Design Foundation

Document Information

Property	Value
Project	Aetheris Trade
Document	Design System
Version	1.0.0
Status	Draft
Owner	Priyanshu Rajpurohit

Purpose

This document establishes the official visual language of Aetheris Trade.

It defines:

- Design principles
- Color system
- Typography
- Spacing
- Layout
- Component foundations
- Interaction rules

Every screen and component must follow this document.

Design Philosophy

Aetheris Trade should feel:

- Premium
- Modern
- Minimal
- Intelligent
- Trustworthy

- Immersive
 - Data-Focused
-

Design Principles

1. Simplicity

Interfaces should remove unnecessary complexity.

2. Consistency

Components must behave the same throughout the application.

3. Clarity

Every action should be obvious.

4. Accessibility

Readable typography, proper contrast, keyboard-friendly interactions.

5. Performance

Design decisions must not negatively impact loading speed.

Design Inspirations

Primary Inspiration

- Apple
- Stripe
- Linear
- TradingView
- Vercel

Design Direction

- Premium SaaS
- Glassmorphism (limited use)
- Soft shadows

- Smooth animations
 - Clean spacing
-

Color System

Primary Color

Reserved for:

- Primary buttons
 - Active navigation
 - Highlights
-

Secondary Color

Reserved for:

- Supporting UI
 - Secondary actions
-

Success

- Profit
 - Completed actions
 - Positive status
-

Warning

- Alerts
 - Important notices
-

Error

- Validation
 - Failed actions
 - Critical warnings
-

Neutral Colors

- Background

- Surface
 - Border
 - Divider
 - Text
-

Theme Support

Mandatory Themes

- Dark (Default)
- Light

Future

- High Contrast
-

Typography

Label

Typography Rules

- Maximum readability
- Consistent hierarchy
- Limited font weights
- No decorative fonts
- Responsive scaling

Spacing System

Base Unit

4px

Scale

4

8

12

16

20

24

32

40

48

64

80

96

Every component should use this spacing scale.

Grid System

Desktop

- 12 Columns

Tablet

- 8 Columns

Mobile

- 4 Columns
-

Border Radius

Small

Medium

Large

Extra Large

Pill

Circle

Use consistent radius values across all components.

Shadow System

Levels

- Small
- Medium
- Large
- Floating

Shadows should communicate elevation.

Iconography

Rules

- Consistent stroke width
- Minimal style
- Scalable
- Pixel aligned

Icons must remain visually consistent throughout the product.

Illustration Style

Use:

- Minimal
- Modern
- Soft gradients
- Finance-focused visuals

Avoid:

- Cartoon graphics
 - Overly decorative artwork
-

Image Guidelines

- High resolution
 - Optimized assets
 - Consistent aspect ratios
 - Lazy loaded where applicable
-

Design Tokens

All design values should be stored as reusable tokens.

Categories

- Colors
- Typography
- Spacing
- Radius
- Shadows
- Animation

- Z-index
-

Design Validation Checklist

- Consistent spacing
 - Consistent typography
 - Theme compatibility
 - Accessible contrast
 - Responsive layouts
 - Token-based implementation
-
