Chapter 1

Purpose

This document defines the official development roadmap for Aetheris Trade.

It ensures every feature is implemented in a logical sequence while maintaining product quality, engineering standards, and business priorities.

The roadmap acts as the execution blueprint for designers, developers, AI systems, testers, and future contributors.

Chapter 2

Product Vision Timeline

Phase 0

Research

Phase 1

Foundation

Phase 2

Experience Design

Phase 3

Core Development

Phase 4

Intelligence Layer

Phase 5

Testing & Optimization

Phase 6

Launch

Phase 7

Continuous Improvement

Chapter 3

Roadmap Philosophy

The roadmap follows five principles:

1. Documentation before development.
 2. User experience before implementation.
 3. Stable architecture before scaling.
 4. Quality before speed.
 5. Continuous delivery over massive releases.
-

Chapter 4

Development Methodology

Hybrid Agile

Documentation Driven Development (DDD)

Component Driven Development (CDD)

AI Assisted Development (AAD)

Continuous Review Process

Chapter 5

Major Milestones

Milestone 1

Foundation Complete

Milestone 2

UX Approved

Milestone 3

Frontend Complete

Milestone 4

Backend Complete

Milestone 5

AI Integration Complete

Milestone 6

Beta Release

Milestone 7

Production Launch

Chapter 6

Release Strategy
