

08_Information_Architecture.md

Part 1 — Information Architecture Foundation

Document Information

Property	Value
Project	Aetheris Trade
Document	Information Architecture
Version	1.0.0
Status	Draft
Owner	Priyanshu Rajpurohit

Purpose

This document defines the structural organization of Aetheris Trade.

It specifies:

- Page hierarchy
- Navigation structure
- Module relationships
- Access control
- Content organization

This document acts as the blueprint for UI/UX design and frontend architecture.

Information Architecture Principles

The architecture must be:

- Simple
 - Scalable
 - Consistent
 - Predictable
 - User-Centric
 - Modular
-

Landing Website

Purpose:

Marketing and user acquisition.

Module 2

Authentication

Purpose:

Secure user access.

Module 3

Dashboard

Purpose:

Provide an overview of user activity.

Module 4

Market Explorer

Purpose:

Discover and analyze stocks.

Module 5

Paper Trading

Purpose:

Execute virtual trades.

Module 6

Portfolio

Purpose:

Track investments and performance.

Module 7

AI Coach

Purpose:

Provide educational guidance.

Module 8

Learning Academy

Purpose:

Structured investing education.

Module 9

Competitions

Purpose:

Host paper trading competitions.

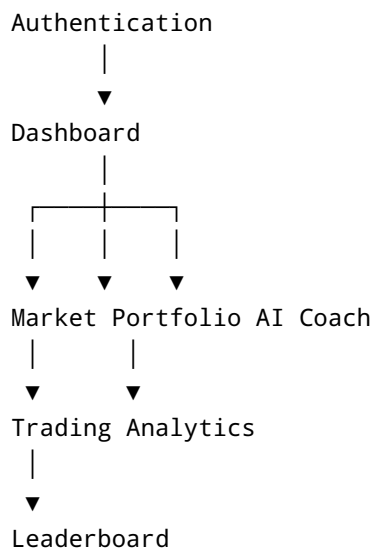

Module 10

Leaderboard

Purpose:

Display rankings and achievements.

Module Relationships
