Part 1 — Project Constitution Foundation

Document Information

Property	Value
Project	Aetheris Trade
Document	Project Constitution
Version	1.0.0
Status	Draft
Owner	Priyanshu Rajpurohit

Purpose

This document defines the permanent rules, principles, and governance of Aetheris Trade.

Every design decision, engineering decision, AI-generated output, and future feature must comply with this constitution.

If any implementation conflicts with this document, this document takes precedence.

Mission

Build the world's most trusted AI-powered paper trading and financial learning platform that helps users learn investing through practical experience without risking real money.

Vision

Create an educational ecosystem where beginners, students, and aspiring investors can confidently develop financial knowledge using AI-assisted learning and realistic market simulations.

Core Values

- Trust
 - Simplicity
 - Transparency
 - Education
 - Performance
 - Accessibility
 - Scalability
 - Innovation
-

Product Identity

Aetheris Trade is:

- AI-first
 - Education-first
 - User-centric
 - Premium
 - Data-driven
 - Long-term focused
-

Non-Negotiable Principles

Every feature must:

- Improve user value.
 - Maintain product quality.
 - Follow the Design System.
 - Follow Engineering Standards.
 - Respect user privacy.
 - Remain maintainable.
-

Product Rules

Always

- Prioritize education over complexity.
- Explain financial concepts clearly.
- Maintain a consistent user experience.
- Build reusable features.
- Keep navigation intuitive.

Never

- Mislead users.
 - Guarantee investment returns.
 - Encourage reckless trading.
 - Add unnecessary features.
 - Compromise usability.
-

AI Development Rules

AI should:

- Educate
- Explain
- Guide
- Analyze
- Encourage learning

AI must never:

- Predict guaranteed profits.
 - Provide misleading financial advice.
 - Hide uncertainty.
 - Generate unsupported conclusions.
-

Design Rules

Every interface must be:

- Responsive
- Accessible
- Minimal
- Consistent
- Fast

All UI must follow the official Design System.

Engineering Rules

Every implementation must:

- Follow Engineering Standards.
- Use TypeScript.
- Follow naming conventions.
- Pass testing before release.

- Maintain documentation.
-

Documentation Rules

Every major change requires updates to:

- PRD
- Roadmap
- Architecture Documents
- API Documentation
- Database Documentation
- MASTER_CONTEXT

Documentation must always remain synchronized with implementation.
