Part 2 — Personas 4, 5 & 6

Persona 04 — Finance Club Member

Overview

This user actively participates in finance clubs, trading communities, and investment competitions. They have basic investing knowledge and seek opportunities to improve their skills while competing with peers.

Demographics

- Age: 18–24
 - Occupation: College Student
 - Investment Experience: Beginner to Intermediate
 - Device Preference: Laptop & Mobile
-

Financial Knowledge

- Understands stock market basics
 - Familiar with charts and indicators
 - Interested in portfolio strategies
-

Goals

- Improve trading performance
 - Participate in competitions
 - Compare performance with peers
 - Build a strong investment portfolio
-

Pain Points

- Limited practical experience
 - Difficulty evaluating strategies
 - Existing platforms lack educational insights
-

Motivations

- Recognition through rankings
 - Skill improvement
 - Learning from AI analysis
-

Behaviour

- Frequently checks leaderboard
 - Reviews portfolio regularly
 - Participates in trading challenges
-

AI Expectations

- Compare portfolio performance
 - Explain investment mistakes
 - Suggest learning resources
-

UX Expectations

- Competitive dashboard
 - Clear analytics
 - Quick access to rankings
 - Fast navigation
-

Frequently Used Features

- Competitions
 - Leaderboard
 - Portfolio
 - AI Coach
 - Watchlist
-

Success Criteria

The user improves trading performance while learning new investment concepts.

Edge Cases

- Competition ends during active session
 - Network interruption while placing orders
 - Multiple competitions running simultaneously
-

Persona 05 — College Faculty / Mentor

Overview

Faculty members or mentors use Aetheris Trade to organize competitions, monitor student progress, and encourage financial literacy.

Demographics

- Age: 28–55
 - Occupation: Faculty / Mentor
 - Investment Experience: Intermediate
-

Financial Knowledge

- Basic to advanced market understanding
- Comfortable reviewing student performance

Goals

- Conduct educational competitions
- Track student progress
- Encourage practical learning

Pain Points

- Difficult to monitor multiple students
- Existing tools lack educational analytics

Motivations

- Better student engagement
- Performance tracking
- Simplified administration

Behaviour

- Reviews reports periodically
- Creates competitions
- Monitors leaderboard

AI Expectations

- Generate performance summaries
- Highlight common mistakes
- Recommend learning topics

UX Expectations

- Simple administration tools
- Clear reports
- Organized student management

Frequently Used Features

- Admin Dashboard
- Competitions
- Analytics

- Reports
 - Leaderboard
-

Success Criteria

Faculty can easily manage competitions and evaluate student progress.

Edge Cases

- Large number of participants
 - Incomplete student registrations
 - Competition scheduling conflicts
-

Persona 06 — Advanced Investor (Future User)

Overview

An experienced investor who uses Aetheris Trade for experimentation, strategy testing, and educational content rather than beginner learning.

Demographics

- Age: 25–45
 - Occupation: Working Professional
 - Investment Experience: Advanced
-

Financial Knowledge

- Strong understanding of financial markets
 - Familiar with portfolio management
-

Goals

- Test strategies without financial risk
 - Evaluate portfolio decisions
 - Explore AI insights
-

Pain Points

- Existing simulators lack realism
 - Limited portfolio analytics
 - Poor AI explanations
-

Motivations

- Continuous learning
 - Strategy validation
 - Portfolio optimization
-

Behaviour

- Uses advanced analysis
 - Reviews long-term performance
 - Experiments with different strategies
-

AI Expectations

- Advanced portfolio review
- Risk analysis
- Strategy evaluation
- Explain market events

UX Expectations

- Fast interface
- Detailed analytics
- Professional dashboards
- Minimal distractions

Frequently Used Features

- Market Explorer
- Portfolio
- AI Coach
- Performance Analytics
- Trade History

Success Criteria

The user validates investment strategies and gains meaningful insights without risking real capital.
