Part 5 — Acceptance Criteria, Release Strategy & Future Roadmap

10. Acceptance Criteria

This section defines the conditions that must be satisfied before Aetheris Trade Version 1.0 can be considered complete.

Every feature, module, and screen must meet these standards before release.

10.1 Functional Acceptance Criteria

Every feature must:

- Work according to the documented requirements.
 - Handle expected user interactions correctly.
 - Handle invalid inputs gracefully.
 - Display meaningful error messages.
 - Maintain data consistency.
 - Prevent unexpected behavior.
-

10.2 UI/UX Acceptance Criteria

The interface must:

- Follow the official Design System.
 - Be visually consistent.
 - Support desktop, tablet, and mobile devices.
 - Provide intuitive navigation.
 - Maintain a premium user experience.
 - Include loading, empty, and error states.
-

10.3 Performance Acceptance Criteria

The product should:

- Load pages within target performance limits.
 - Maintain smooth animations.
 - Avoid unnecessary re-renders.
 - Optimize images and assets.
 - Use lazy loading where appropriate.
-

10.4 Security Acceptance Criteria

The platform must:

- Protect user data.
 - Validate all inputs.
 - Secure authentication flows.
 - Encrypt sensitive information.
 - Prevent common web vulnerabilities.
 - Follow secure development practices.
-

10.5 AI Acceptance Criteria

The AI Assistant must:

- Explain concepts clearly.
 - Review portfolios objectively.
 - Never promise profits.
 - Present educational guidance only.
 - Clearly distinguish facts from opinions.
-

10.6 Accessibility Acceptance Criteria

The platform must:

- Support keyboard navigation.
 - Provide readable typography.
 - Maintain accessible color contrast.
 - Include semantic HTML.
 - Support assistive technologies.
-

11. MVP Definition

Version 1.0 represents the first public release of Aetheris Trade.

The MVP focuses on delivering a complete educational paper trading experience rather than a large number of features.

Included in Version 1.0

Authentication

- Email Login
 - Google Login
 - Password Reset
-

Dashboard

- Portfolio Summary
 - Virtual Balance
 - Today's P&L
 - Watchlist Preview
 - Recent Activity
-

Market

- Stock Search
 - Company Details
 - Price Charts
 - Buy/Sell Simulation
-

Portfolio

- Holdings
 - Trade History
 - Portfolio Performance
 - AI Portfolio Review
-

AI Coach

- Stock Explanation
 - Portfolio Analysis
 - Beginner Guidance
-

Leaderboard

- Weekly Rankings
 - Monthly Rankings
-

User Profile

- Achievements
 - Trading Statistics
 - Learning Progress
-

12. Out of Scope

The following features are intentionally excluded from Version 1.0.

- Real money investing
- Broker integrations
- Crypto trading
- Options trading
- Margin trading
- Subscription billing
- Mobile applications
- Social copy trading
- Public community feed

These features may be included in future releases.

13. Product Risks

Potential project risks include:

Technical Risks

- Third-party API limitations
 - AI service availability
 - Performance bottlenecks
 - Scalability challenges
-

Product Risks

- Feature creep
- Poor onboarding
- User confusion
- Low engagement

Development Risks

- Inconsistent documentation
 - Scope expansion
 - Delayed implementation
 - Unclear requirements
-

14. Assumptions

The following assumptions apply to Version 1.0.

- Users have internet access.
 - Users understand basic web navigation.
 - AI services remain available.
 - Market data providers remain operational.
 - Virtual trading does not require financial regulation applicable to real brokerage services.
-

15. Release Strategy

Development will follow incremental milestones.

Milestone 1

Foundation

Documentation

Architecture

Design System

Milestone 2

Landing Website

Authentication

Dashboard

Milestone 3

Market

Portfolio

Trading Engine

Milestone 4

AI Coach

Leaderboard

Learning

Milestone 5

Testing

Optimization

Deployment

16. Future Roadmap

Version 1.1

Learning Academy

Achievements

Notifications

Improved Watchlist

Version 2.0

Community

College Competitions

Advanced AI Coach

Portfolio Builder

Version 3.0

Mobile Application

Global Markets

Mutual Funds

ETFs

Financial Planning

Version 4.0

Broker Integration

Premium AI

Advanced Analytics

Personal Financial Ecosystem

17. Success Metrics

The product will be evaluated using measurable indicators.

Examples include:

- Registered Users
 - Daily Active Users
 - User Retention
 - Average Session Duration
 - Number of Trades
 - AI Usage
 - Learning Completion
 - Portfolio Reviews
 - Competition Participation
-

18. Document Governance

This PRD should be updated whenever:

- New major features are approved.
- Product scope changes.
- Architecture changes.
- Business goals change.
- User research introduces significant findings.

All changes must be version controlled.

19. Revision History

Version	Date	Description
1.0.0	June 2026	Initial Product Requirements Document

20. Final Approval

This document represents the official Product Requirements Document for Aetheris Trade Version 1.0.

All future design, engineering, AI integration, testing, and deployment activities should align with this document unless superseded by a newer approved version.
